**Notes.** • The **Shards of Alara Premium Foil Booster Box** (Jan 2010) is the only block-wide all-foil booster product MTG ever made — the 'Alara all-foil box' collectors ask about. • The **Double Masters VIP Edition Box** holds 4 foil-loaded VIP packs. • **Innistrad: Double Feature** is all-foil but *draftable*, so it lives on the standard Booster Box checklist, not here. • **Ravnica Allegiance** (2019) had the first-ever Collector Boosters but only as single packs — no display box. • No-Collector-Booster sets are omitted: pre-2019 sets, Modern Horizons 1, Jumpstart, most Commander precon, Warhammer 40,000. • **2027**: Wizards has confirmed six more sets (three in-universe, three Universes Beyond) — names & dates not yet announced. • **Prices move** — confirm live values on TCGPlayer, PriceCharting or MTGStocks before buying.
